DETAILED ACTION

1. Due to amendments and persuasive arguments by applicant, the previous rejections of record based on Matsuba et al. have been overcome and are hereby withdrawn.

Claim Rejections - 35 USC § 102/103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-4 are anticipated under 35 U.S.C. 102(b) by or, in the alternative, unpatentable under 35 U.S.C. 103(a) over Tuzuki et al. (USPN 4,179,481) or GB 1378434, for reasons cited in the previous action.

Response to Arguments

4. Applicant's arguments filed 07/12/2007 have been fully considered but they are not persuasive.

5. Regarding applicant's argument that in Example 1, Tuzuki et al. involves a copolymer with a specific viscosity of 0.37 (in chloroform), applicant is reminded that the prior art teaching is not limited to any particular example.

Tuzuki et al. still teaches (in col. 3, lines 35-45 and col. 6, lines 4-9) the advantages of having a final two-stage (composite) polymers preferably with specific viscosities of at least 0.5 in benzene, which corresponds to preferred specific viscosities of **at least** about 0.24 in chloroform (See Table 1 in the declaration filed on September 10, 2002 in appellant's parent application 09/530,202).

Further, the particles size, which is a function of viscosity and composition, would have been inherent or at least obvious in view of the teachings of Tuzuki et al.

6. Applicant's arguments do not clearly point out the patentable novelty that he or she thinks the claims present in view of GB 1378434. Further, they do not show how the amendments avoid such the reference.

7. Regarding the Declaration, the criticality of the specific viscosity at the first step and the second step is not in dispute.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1713

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
